- HTML and CSS
- Flask Framework
- SQL
- Git/GitHub
- Computer Hardware
- Networking
- Docker
- Bash literacy
- Google Cloud Platform (GCP)

## Education

### Computer Science

**Anticipated 2025**

Bachelor of Science (GPA 3.90/4.00)

University of Alabama at Birmingham (UAB), Birmingham, Alabama

- Dean's List
- Member of the Honors College
- Member of the Phi Kappa Phi Honor Society

## Work Experience

### Cloud Engineering/SRE Intern – Motion (GPC)

**May 2024 – August 2024**

1605 Alton Rd, Birmingham, AL 35210

- Wrote documentation for Terraform resource modules used within the motion.com GCP
- Collaborated with team members to export cloud billing information from GCP to create a billing dashboard, increasing cloud spending awareness within IT and improving FinOps
- Attended meetings/events to make connections within Motion and GPC and understand operations
- About 40 hours committed per week

### Student Assistant – UAB Anesthesiology IT

**August 2022 - Present**

625 19th St S, Jefferson Tower, 9<sup>th</sup> floor, Room 965C, Birmingham, AL 35233

- Answered phone calls regarding both technical requests and medical case compliance.
- Provided both onsite and offsite computer assistance.
- Delivered and installed hardware to different locations in UAB Hospital
- About 30 hours committed per week.

### Server Assistant – Felix's Fish Camp

**May 2023 - August 2023**

1530 Battleship Pkwy, Spanish Fort, AL 36527

- Responsible for ensuring the guest experience at the restaurant was satisfactory by doing side-work.
- Cleaned and reset tables.
- Responsible for the tasks required for both opening and closing.
- About 35 hours committed per week.

**Host – Mellow Mushroom****May 2022 - August 2022**

2409 Schillinger Rd S, Mobile, AL 36695, United States (closed location)

- Helped guests to tables and accommodated any other requests.
- Cleaned and reset tables.
- Responsible for the tasks required for both opening and closing.
- About 30 hours committed per week.

**Operations Attendant – UAB Campus Recreation****September 2021 - April 2022**

1501 University Blvd, Birmingham, AL 35233

- Provided effective customer service to guests.
- Responsible for maintaining facilities and overseeing guests.
- Organized and cleaned patron's equipment.
- About 15 hours committed per week.

**Research Experience****Gastrointestinal Electromechanics Lab****January 2023 – December 2023**

Undergraduate Research

- Joined lab through the SciTech Honors program at UAB.
- Research includes the study of the propagation of electrical potentials throughout pig stomachs, as an analogue for human stomachs.
- Developing an adversarial signal denoiser using MATLAB signal processing, which will use machine learning to denoise the signals obtained during experiments for better data collection.

**Personal Projects**

- Personal server – Repurposed PC with Ubuntu Linux installed used for various home automation and entertainment applications.
- Personal website – Website hosted on GitHub pages coded in HTML and CSS.
- Custom-built gaming PC – Spent Summer savings on components and then assembled them in 2022.

**Volunteering**

- ARF Animal Shelter – Helped clean kennels and provide water and food for dogs.
- Feeding the Gulf Coast – Quality checked and stored food into crates for distribution to those in need.
- Volunteers of America – Handed out packaged food to those who needed it in cars during the height of the Covid-19 pandemic.

**Extracurricular Activities**

- St. Luke's High School Varsity Soccer – Played defensive center back as letterman for 4 years.
- Mobile United FC – Played defensive center and outside back for 2 years.
- St. Luke's High School Robotics Team – Lead programmer for 2 years, coding in MATLAB.
